

I just want to express my concern about K-Love possibly being removed from my radio station. 1. This station serves me and my family in the utmost positive way. In a day where all we hear is trash on the radio and my children cannot sit in the car and listen freely is a huge problem. K-love provides that sort of safe environment for my children where I don't have to worry about them hearing about sex and other inappropriate subjects. 2. If K-love were to be displaced by an LPFM broadcaster there would literally be no station that my family could listen to. The stations in my area are so full of topics that I am trying to protect my family from. This would be a serious crisis for our family and community. I know that it sounds funny that it is just a radio station but K-love is so much more than that it is a teacher and a safe haven for my family. 3. K-love makes my family aware of community services that are in need of help in my area. This brings to light that we are to serve others and not just pretend community issues do not exist. It shows us that positive works work for our community and allows our children to know that by helping others we become productive members of our society. All these wonderfully positive things come from K-Love so please think long and hard when making your final decision regarding the future of K-Love. I thank you for your time and consideration in this matter.
